TRAINING		
See DLA Web Site at http://www.dlagroup.com.au for Training Schedule		

Notes:

- 1 Run-time fees: Prices apply to all deployment of OMNIS against the native datafile or any other database.
- 2 All Software Development Kits [SDKs] are single user yet multi platform (Windows, MacOS, Linux, Solaris).
- 3 All SDK updates, i.e. Studio v5.0 to v5.1 (dot releases) will be made available free of charge when available irrespective of support status. A Support Programme is required to upgrade Runtimes.
- 4 All SDK upgrades, ie Studio v4.x to v5.x, or OMNIS 7³ v7 to v8, are chargeable at the relevant discount for the Level of Support.
- 5 New runtimes are required for OMNIS 7³ v7 / v8 and Studio v3.3, v4.0, v4.1, v4.2, v4.3 & v5.
- 6 ALL deployments require Runtimes. If an OMNIS library is deployed or made available to a user over a server, a Runtime fee must be paid for each user of a library irrespective of the number of concurrent, SQL or NDF users.
See Deployment Rules on the DLA Web site at <http://www.dlagroup.com.au/omnis/licence.html>
- 7 The ESU and EMU Licences are subject to Agreement between the Developer and DLA. Call DLA for information.
ESU limited to 1,000 single user deployments in 1 year, limited to one application. Connection to Omnis datafile only.
EMU limited to specified number of user deployments in 1 year, limited to one application.
- 8 DLA reserves the right to modify these prices at any time without notice. DLA will post new price lists at the commencement of every quarter unless new products are released or currency movements require otherwise.
- 9 Additional Courier fees may apply. All prices are in Australian Dollars (A\$) and include GST.
- 10 Orders are typically completed within 24 hours. However, DLA will NOT deliver later than five (5) business days after placement of an order.
- 11 Upgrade fees are payable by Level 2 Supported Developers for all non-supported SDKs.
- 12 TigerLogic have a NIL return policy - once a Runtime or SDK code has been delivered it may not be returned for credit.
- 13 Runtime code consolidation (5 single users to 1 x 5 multi-user code) or Runtime code splitting (20 multi user to any smaller denominations) incurs a fee per Runtime code. Minimum fee is A\$110. Call DLA for a quote.
- 14 Unicode version is only required for applications using a non-ASCII character set - eg Chinese, Japanese or other.
- 15 All SDKs must be under the same Level of Software Maintenance & Technical Support Programme.
- 16 Runtime fees: Prices apply to all deployment of OMNIS against the native datafile or any other database.
- 17 Student ID required for Time Limited SDK
- 18 Available to new clients only, limit one per client. Licences are not upgradeable.
